

Welcome

Country Market is a 200 acre family owned farm, farm shop and garden centre.

We invite you to explore the farm on two specially designed family trails and find out more about food and farming, whilst enjoying the fresh air and getting fit.

After your walk, you can enjoy a meal or a snack at the Cornucopia restaurant and buy some local produce at our farm shop.

Eating locally grown seasonal food is good for you because...

It is better for the environment because it has not travelled miles to get to you.

It helps the local economy because you are buying from local producers.

It's fresher and tastier! This is because it ripens in the field.

You can colour in all the pictures in this leaflet

"I like to snack on fruit which gives me lots of vitamins and fibre, supplies me with energy and tastes yummy!"

"I make sure I eat 5 portions of fruit and vegetables every day!"
